

Official Announcement: Innovation Bharat Expo 2026—Now Scheduled for 28th–30th Jan 2026

"The dates of Innovation Bharat Expo 2026 have been rescheduled to 28th–30th January 2026 in alignment with key stakeholder requests and to ensure enhanced participation across sectors."

BANGALORE, India - July 14, 2025 - [PRLog](#) -- Innovation Bharat Expo 2026: Official Date Rescheduling Announcement

We are excited to announce the rescheduling of the Innovation Bharat Expo 2026 to the new dates of 28th to 30th January 2026, at the Bengaluru International Exhibition Centre (BIEC), Bengaluru. Initially planned for 14th to 16th January 2026, the revised dates are a strategic move, made after extensive consultations with stakeholders and partners across sectors, in order to maximize participation, coordination, and national impact.

Reasoning Behind the Date Shift

The change in dates was prompted by requests from several key organizations including government ministries, public sector units (PSUs), academic institutions, and international delegates. The original schedule, which closely followed the New Year and festive break, posed several logistical and operational challenges for diverse participants. These challenges included limited travel availability, administrative constraints, and alignment difficulties with institutional calendars.

By shifting the expo to the post-Republic Day period, we are enabling a smoother, more accessible, and impactful event for all stakeholders.

The new schedule, immediately after Republic Day, allows broader national engagement, smoother coordination with government departments, and increased visibility for innovation showcases, especially in sectors like aerospace, defense, and smart technologies.

This shift also helps avoid overlaps with other major events and academic calendars, ensuring a more vibrant and productive platform for exhibitors, speakers, and attendees."

We extend our sincere thanks to all partners and prospective participants for their understanding and continued support. We firmly believe that this strategic shift will amplify the success of the Expo and provide an unparalleled platform to catalyze India's innovation ecosystem.

New Dates: 28th – 30th January 2026
